U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
on FEBRUARY 27, 1977
 - Export Shipments in
Current Marketing Year
 - Daily Sales Reported
FEBRUARY 28 - MARCH 6, 1977
- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

COMMENTS PREPARED BY THE OFFICE OF THE GENERAL SALES MANAGER

EXPORT SALES REPORT

Comments on release of March 10, 1977 (based on reports from exporters for the week ending February 27, unless otherwise noted):

Wheat: Sales activity recovered moderately from the lull of the preceding 5 weeks. Egypt was the only significant buyer, taking 207,500 metric tons (MT) under PL-480. Japan, The Netherlands and Algeria also added to their previous purchases. The USSR, as reported last week under the daily reporting system, switched 61,000 MT of Hard Red Winter from the 1977/78 marketing year (MY) to the current MY. Cancellations by East Germany and Italy reduced their outstanding purchases by 76,400 MT and 20,000 MT respectively. East Germany also cancelled or designated as other than U.S. origin 94,200 MT.

Corn: Sales activity continued brisk, at 1.3 million MT, the third heaviest so far this MY. West Europe, East Europe, Japan and Mexico all materially increased purchases for the current MY. East Germany bought an additional 100,000 MT for the current MY as reported under the daily reporting system. Weekly exports continued moderate.

Barley: The export market continued moderately active. Sales to The Netherlands and Ireland rose as a total of 50,000 MT was switched from unknown destinations. Colombia added 25,000 MT to their earlier purchases. Exports, principally to the EC, were the heaviest in a number of weeks.

Grain Sorghum: Sales activity continued moderately heavy with Japan, Venezuela and the United Kingdom the principal customers. Japan's purchases from the United States to date already approach their imports for the entire 1975/76 MY. Activity was heavy in optional origin sales with the net effect -- a gain of 222,300 MT. Demand for U.S. grain sorghum has been strong this MY and total sales are rapidly nearing the official USDA export estimate of 5.1 million MT.

Rice: After an extended absence, PL-480 sales have reappeared as Korea purchased 58,900 MT of medium or short grain brown rice for the 1976/77 MY. The USSR was in the market again as 6,000 MT of long grain was switched from unknown destinations and shipped. This is their first purchase of long grain for the MY as earlier purchases had been medium or short grain. Exports continued fairly heavy.

Soybeans: Sales slowed with the EC accounting for over three-fourths of the activity. Japan, Switzerland and Israel accounted for most of the remaining third. Exports (319,600 MT) also declined from the previous week with the EC and Japan accounting for over three-fourths of the shipments. Exports to date of nearly 8.9 million MT, with about half the 1976/77 MY passed, represent over 60% of the USDA projection.

Soybean Oil: The only significant activity was a 10,000 MT PL-480 sale to Pakistan.

Cotton: Sales decreased to a moderate level. Japan was the only country to register significant new sales, principally for MY 1977/78 delivery. Exports continue large with Japan, Korea, Taiwan and Hong Kong the principal destinations.

Soybean Cake and Meal, and Oats: Showed no significant activity.

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account.

Data shown above may not add due to rounding.
